

Dannells®

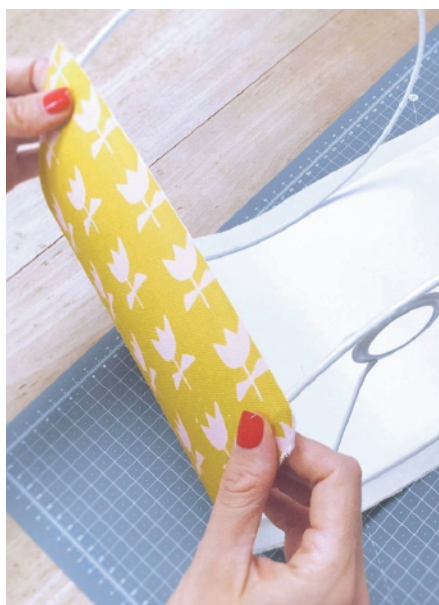

Discover our creative kits that you can use with fabric, textile and paper to make fabulous bespoke products for any home interior. Make your own lampshades with our easy to use DIY kits.

Our British creative lighting brand, Needcraft, was born from 50 years of experience serving the lighting industry worldwide.

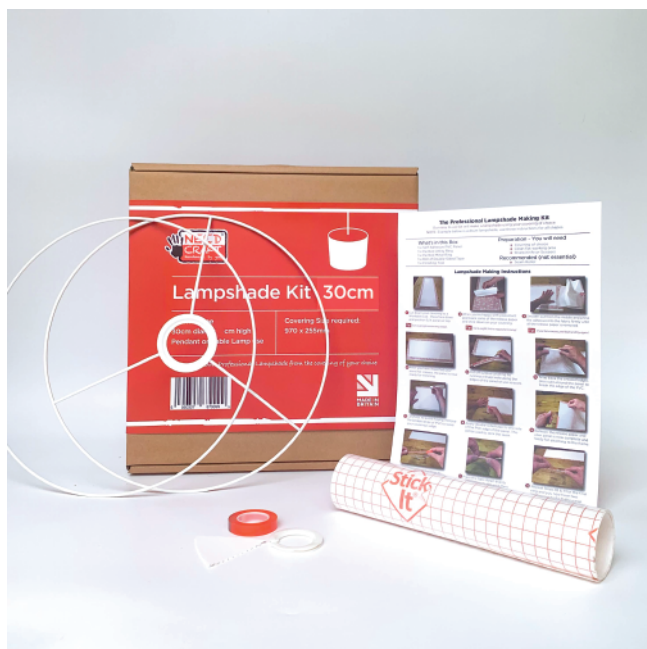

By taking our expertise of manufacturing quality engineered materials, we've created professional kits for crafters and DIY enthusiasts to make their own lampshades using coverings to match their interiors or room theme, all made in the historic town of Waltham Abbey in England.

Lampshade Making Kits

Make your own lampshades with our easy-to-use DIY kits. Add your own fabric or wallpaper and follow the instructions in the box, it's that easy.

Haberdashery Retailers

Kits and Fabrics make the perfect product partnership! Purchase our Lampshade Making Kits to retail and cross-sell with your fabric stock.

Designed to fit any UK (B22) or European (E27) Table/Floor lamps and pendant (ceiling) fittings.

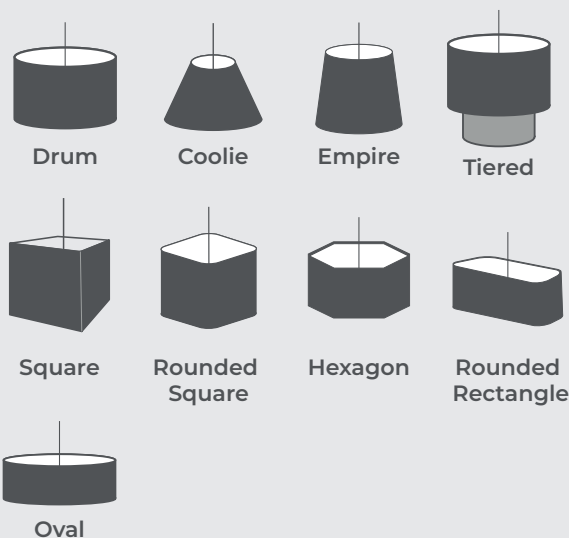

We manufacture a comprehensive range of shapes and styles including Oval, Rectangle, Square, Coolie, Empire and Candle designs but the most popular shape is the Drum.

The kits are available in a large range of sizes and can be accessorised with diffusers and different coloured linings including metallics.

We supply products for Retailers, Manufacturers and Workshops.

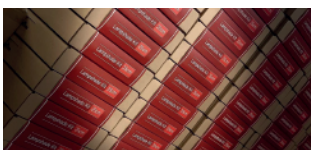

Various shapes and sizes available

Explore our Craft Kits

With Needcraft Kits, you can make soft furnishings in many shapes and sizes - Table Lamps, Floor Lamps, Bins, Clocks, Wall Art, Lanterns, and much more.

Workshop Packs, Manufacturers Packs and Retail Packs available for all our Needcraft Kits.

Make & Paint Lampshade Kits

RONSEAL®

Paint the pre-laminated textile panel included in the kit with your design and make a unique lampshade that can be used as a pendant (ceiling) or table lamp.

You can use any paint that is compatible for fabric and textile application, like Acrylic and Chalk paint products.

This is also a fantastic activity for kids!

We supply a fantastic range of quality low-cost Acrylic paints in 23 colours and distribute Ronseal Chalk Paints that you can use with our kits.

Bottle Lamp Holder Converter Kit

Convert your empty bottles into lamps with this easy to use adaptor.

Our kit includes a pre-wired lamp holder that allows the conversion of most types of bottles into a lamp.

Just push the lamp holder into the bottle opening. When secure you can fit your lampshade.

Table & Floor Lamp Kits

Make your own Table Lamp or Floor Lamp with our easy to use kits.

Simply laminate your fabric to the self-adhesive panel and follow the step-by-step instructions supplied in the box, it's that easy.

Lantern Making Kits

Design beautiful lanterns using your favourite textiles or wallpaper that can be used safely all around the home.

The lanterns use LED candle lights, that will give your fabrics delightful decorative effect when lit.

Brilliant craft activity for children who can design their own night lights.

Supplied with and without LED battery candle lights.

Textile Wall Art Kits

A simple piece of fabric can be the perfect solution to decorate your empty wall, it can be easily framed and hung on the wall with these easy-to-use kits.

Astonishingly simple, effective and low cost.

The perfect way to turn fabric designs into unique and beautiful pieces of wall art within minutes.

Clock Making Kits

Make your own clock with our easy DIY kits.

Simply laminate your covering to the self-adhesive panel and follow the step-by-step instructions supplied in the box, it's that easy.

Our clock assembly has a quartz movement with a sweep second hand (non ticking).

Supplied with 2 sets of clock hands (black and white) to coordinate with your design.

Paper Bin Kit

Design and make your very own waste-paper or storage bin to match the interior of any room. Our kit enables you to make a tapered waste-paper bin using the textile of choice.

Add your own fabric or wallpaper and follow the instructions in the box.

Kids will also love making a bin for their bedroom.

Sewing Bin Kit

Design your own sewing or storage bin using your favourite fabric with our easy-to-use kit.

The Sewing Bin will be a great companion to keeping your projects organised and at your fingertips.

A stylish way to store all your sewing essentials or arts and crafts projects.

Lampshade Linings Retailers Range

We manufacture a specialist range of these materials for retailers to stock for consumers who have small projects, making or repairing lampshades. Each pack has sufficient material to make or repair rigid lampshades. We have several products available, including Standard, Premium, Metallic, Clear, and Double-Sided.

The materials are rolled and then packaged in boxes for protection. The boxes have a built-in Euro Hook Slot for in-store display.

Choosing different materials for the inside of your Lampshades will completely transform their appearance and change the way it delivers light to the room.

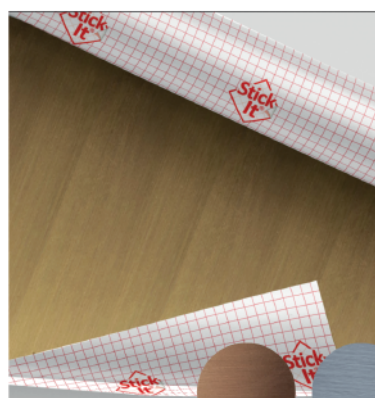

White

Clear

Glass Clear

Standard & Premium

Our Standard Range is the best-selling product, with quality at low cost and available in White or Clear. Our Premium Range is thicker and is also available in White, Clear and Glass Clear.

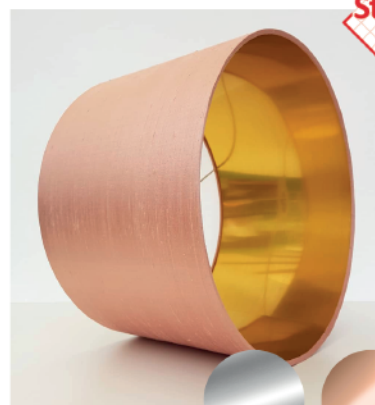

Brushed Metallics

Our Brushed Metallic range of self-adhesive lampshade materials deliver lustrous colour and burnished sheen with a classy and robust brushed effect. Available in Gold, Copper and Silver.

Neon

The Neon range is extremely bold and fluorescent and you will be sure to have fun making vibrant modern funky lampshades with these materials. Available in Orange, Pink, Red & Yellow.

Mirror Metallics

Highly reflective liner projects lustrous reflective glow out from the inside of the lampshade, without allowing much light to travel through the lampshade. Available in Gold, Copper and Silver.

Embossed Metallic

This range of metallic blackout self-adhesive lampshade material has a slight orange-peel emboss which projects a warm & lustrous finish, available in Champagne, Gold, Silver and Bronze.

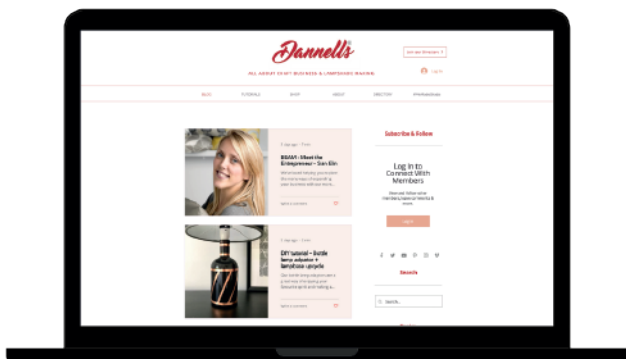

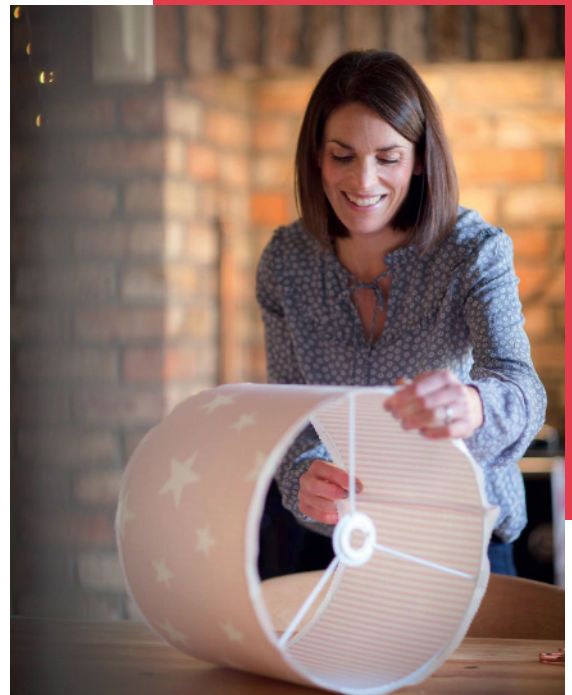

Double-sided

Our range of double-sided self-adhesive lampshade material is used with your coverings to make lampshades that have textiles or wallpaper on the inside and outside.

Lighten Up Your Life

Design & Make your own Lampshades

Living spaces have become much more important over the last year and lighting is an essential element to set the right ambience and give your rooms a unique look. But have you given thought to the shades on your lamps?

They can make just as much of a difference in the appearance in a room. The choice offered by many high street retailers is limited, they cannot take a chance on fashion colours and patterns or extra-large shades so they tend to offer plain neutral-coloured lampshades in standard shapes and sizes.

This is no longer a problem thanks to Dannells' Professional Lampshade Making Kits. Dannells are experts in the lampshade making industry with over 40 years' experience of supplying materials and components to manufacturers around the world. More recently the Company has turned its attention to designing products for homemakers, creative crafters that sell Handmade and Homemade Crafts Online and DIY enthusiasts allowing anyone to make professional stylish and bespoke lampshades for their home or business using their coverings of choice.

Ideal for complete beginners with no previous craft experience or for crafters with a passion for trying something new. Dannells' Lampshade Making Kits are easy to make and come in a wide range of shapes and sizes, ranging from traditional drum lampshades to modern square and hexagon shades. Suitable as either a pendant light or a table lamp, each kit

includes all the high-quality materials needed to make your own professional shade, including easy-to-follow photo instructions with plenty of tips and tricks for easy assembly. By simply adding your own choice of fabric or wallpaper you can emphasise your interior colour scheme or room style.

And the opportunities of Dannells' Lampshade Making Kits don't stop there! If you have a creative streak and would like to generate some extra income, why not consider becoming a Professional Lampshade Maker. Many of our customers,

who start by making just one lampshade, have gone on to create sustainable and profitable businesses selling lampshades by adding their own unique creative twist.

A case in point is Anita, based in North Yorkshire, after a career break to raise her 3 children she wanted to return to work

doing something she really enjoyed. After completing a Lampshade Making Workshop she started making lampshades for herself, friends and family and now has a successful lampshade making business - Hearts & Glitter - and hosts her own Lampshade Making Workshops.

Alison Bick is also a great inspiration. By channelling the beauty of her home surroundings in Cornwall, she designs bold and beautiful lampshades with a unique modern floral style. In 2017 she bought some lampshade kits from Dannells, started off with a few designs printed on fabric, and after some really great feedback from customers, she gradually started selling more and hasn't stopped since.

So, whether you want to make just one lampshade or are a competent crafter looking for a new business venture, all that's needed is a pair of fabric scissors, a pencil and a flat surface, making it a genuine kitchen table craft. No extra specialist

equipment is required, meaning you can get to work straight away to 'brighten' up your space!

FREE Advice & Support

We offer free advice and support to all our Lampshade Makers. There are many tools and platforms online to support your new lampshade making venture.

-  Dannells has a Facebook group with over 2000 friendly shade makers who are always ready to answer any questions and share insider tips.
